Point Saver offers 50% of points for week long reservations at many resorts within 59 days and within 30 days offers 50% off points for nightly reservations with 2-night minimum.

As an improvement to the Point Saver search engine, this new version allows the entry of desired arrival dates. This option can retrieve discounted inventory that is advertised through our email offers and is not restricted to arrival dates 59 days or less.

Point Saver allows for point ranges for availability search.

Point Saver search is designed to allow members to search for resorts and dates for which discounted point rates are available.

THE Club® membership gives you many opportunities to enjoy extra vacations by offering discounted rates using your points and this search tool will only identify those opportunities being offered at a discount. THE Club® offers 50% off points for week long reservations at many resorts within 59 days, and within 30 days offers 50% off points for nightly reservations for a two night minimum stay. In addition THE Club® each month through email announces additionally discounted points opportunities, so for notification subscribe within the Preferences - Mailings - Member News and Offers. This search feature will solely return discounted opportunities, so if you wish to see all availability (including point discounts) please use the Quick Search feature.

You may sort the Availability Grid below by clicking on the column headers.

Clicking on a header the first time will sort the Grid by that column in descending order, while clicking the second time will reverse the order.

When the Grid is sorted by a column, a small arrow will appear next to it, indicating the sort order.

Quick Search: A faster, more flexible search engine with **real-time** availability. Thus, replacing the Live Search option in the previous site version.

Similar to the Point Saver engine, Quick Search also allows members to define their availability search by:

- Destination: Region or resort
- Activity: Beach, golf, ski, and outdoors
- Point Range.
- Proximity to a selected resort.

This search method is designed to offer flexible parameters that allow members to search for:

- A large range of dates and resorts – for example, a year's worth of availability for a specific resort or region
- All available resorts for a specific travel month
- Flexible stay durations (i.e. not restricted to 7-night stays)

Members can also chose how to display the availability results:

- Color-coded availability calendar
- Sliding availability calendar to move the arrival date throughout the allowed range of booking and color-coded matrix results
- Standard grid that displays a list of available accommodations ("Classic" results from previous site version)
