

## **ALPENCLUB SCHLIERSEE RESORT, GERMANY**

### **Terrain:**

Level – due to steep inclines within the resort area, we are having two levels at AlpenClub. The first one gives access to the parking place, resort entrance, reception, elevators, bar, children's room, restaurant, conference rooms, restaurant-terrace. Via the elevator and the stairways there is access also to the swimming pool area, gyms, skittle-alley and washrooms in the cellar and also to the hotel rooms and club suites on the first, second and third floor in the main building.

The second level leads to the accommodation in the hotel garden. Some of these apartments have their entrance on the first level but most of them are on the second level. There is also an underground entrance at the main hotel building which can be used by guests staying in the outside accommodation and leads directly to the gyms, swimming pool area, skittle alley and washrooms.

In the garden, there is a connecting ramp from the 1<sup>st</sup> to the 2<sup>nd</sup> level. The paths in the garden and parking facilities are old and partly insecure (parking) but we try to maintain them in summer and winter as good as possible. They are all accessible for wheelchair users.

### **Communal areas:**

Reception	Accessed by 5 steps or ramp. Automatic doors.
Bar/Restaurant	Accessed via Reception – nearly same level (3 steps or ramp).
Accessible public toilet	Close to the bar/restaurant
Games Room	Accessed via Reception (elevator) or underground-entrance, 4 steps to get in.
Entertainment	Accessed via Reception – in the lobby or at the bar (except skittles in cellar).
Leisure Centre	No disabled facilities at all there, no ramps, changing area or pool hoists - all this is budgeted for 2009.
Hotel rooms	We could help guests with disabilities when having a normal size wheelchair. The entrance doors in all accommodation or the bathroom doors are too small in most cases.
