Traveling with Kids? What Could Possibly Go Wrong?

Weather creates a covered trip delay forcing your family to overnight in an airport. Wouldn't you prefer to get a hotel room and a meal? Need to go to urgent care at your destination for medical attention? Someone accidentally damages something in the unit you've rented? Travel insurance can help take the adventure out of travel, when that is not part of your plans.

Help Protect Your Financial Well-being

Unlike many domestic health plans or Medicare, did you know that our travel protection can provide you with emergency accident and sickness medical expense coverage worldwide, including arranging and paying for emergency medical evacuation if needed?
